MORE IMPORTS OF GOLD

FOR TRANSFER FROM EUROPE.

Stock Market Active and, in a Professional Way, Strong - Local Trade Is in Healthy Volume.

At New York yesterday money on call was Armer at 314@314 per cent.; last loan, 2% per

\$4.79% @4.79%.

Silver certificates were 63% 764%c; bar silver, 62140; Mexican dollars, 4914c. Silver bars at London were 30%d an ounce.

The undertone of the stock market became strong yesterday, and prices moved upward No. 2 yellow, 4; No. 3 yellow, 6; No. 3 mixed, 5; total, 20 cars. Oats: No. 2 mixed, 3 cars; repretty consistently to the close, which was strong, but notably dull, and with gains well maintained. The dominant factor in the market was the large engagement of gold for import, London, Paris and Berlin all contributing, the stocks were not large at any time, and the day's ins were attributed to protessional opthe most part. There was a fair disfered. People's gas was the notable example in the industrial list. The stock sold off after the opening on the presumption that Thursday's buying had satisfied the demand from the shorts but the large covering at the decline caused a renewed advance, and it was lifted at one time an extreme 34, closing with a net gain of 14 per cent. In the railroad list Northern Pacific was in largest demand on buying supposed to be for inside interests. But here also the short interest played an important part in the day's advance, which reached 214, with the net gain 2%. But while the strength of these two stocks was pre-eminent, a list of those which rose from 1 to 2 points was a long one. Notwithstanding the notable duliness at the last, the closing was strong and gains were well maintained. The failure of the money rate to respond to the operations in the stock market gave color to the supposition that they were conducted by professional operators, who had lves with time loans with a view such a contingency as the present. The call n rate, in fact, was inclined to sag, the ruling declining to 3 per cent, notwithstanding

oans made yesterday carry over until Mon-There was some relaxation in the interior lemand for currency, New York exchange at Chicago rising to 30 cents discount, compared with 40 cents discount Thursday. Reports of the receipt of additional gold at Pacific coast points, which will be quickly available by telegraphic transfer to the New York money market, and the lessened demand on the market by the subsury by reason of the large mid-monthly ments, were also accepted as promise relief for the money market. The most sub-antial encouragement in the day's events was om the fact that the Bank of France seemed disposed to treat demands for gold more len-iently, that institution being best equipped of all the world's great banks to supply gold. The bond market was quiet and changes were unimportant. Total sales at par value were United States new fours advanced 1/4 Following are the day's share sales and the

Another Good Day of Trade on Wholesale Streets-Prices Steady.

Like the preceding days of this week, trade with the houses on the wholesale streets yesterday was active. Seldom has there been a week in which as many goods were sold as in the one closing to-day. The dry-goods houses, boot and shoe merchants, confectioners, hat and cap dealers and milliners seemingly are the most benefited, but in other lines a good trade was en-NEARLY THREE MILLIONS ENGAGED | joyed. On Commission row a good business was transacted. Receipts of fruits and vegetables are not as large as ten days ago, and better prices are being realized. The poultry, egg and butter markets are all active, and on choice stock prices quoted are readily obtained. In all lines of business a good feeling is noticeable, as both wholesale and retail merchants are becoming confident that there is to be no change in the present administration of the affairs of this government, financially or otherwise. The local grain market presents no new features. Receipts are not large, being insufficient to meet local demand. Track bids yesterday, as

reported by the secretary of the Board of Trade ruled as follows: Wheat-No. 2 red. 75c; No. 2 red. on milling Prime mercantile paper, 5@6 per cent.

Sterling exchange was firmer, with actual business in bankers' bills at \$4.83% for demand and \$4.80@4.80% for sixty days; posted rates, \$3.81@4.81% and \$4.85@4.85%; commercial bills, \$3.824.81%; No. 3 mixed, 41%c; No. 2 white mixed, 41%c; No. 3 white mixed, 41%c; No. 2 white mixed, 41%c; No. 3 white mixed, 41%c; No. 4 white mixed, 41%c; No. 4 yellow, 41%c; No. 2 mixed, 41%c; No. 3 mixed, 41%c; No. 4 mixed, 380%36c; ear corp. 41c. 38@39c; ear corn. 41c. CONDITIONS ARE BETTER

STEADY IMPROVEMENT IN THE GEN-ERAL TRADE SITUATION.

Cereals Are Moving Freely-Increased Boot and Shoe Shipments-The Iron and Steel Prospects.

NEW YORK, Oct. 12.-R. G. Dun & Co.'s weekly Review of Trade, to-morrow, will say: More seasonable weather had imbut the coal strike continued as the restraining factor in business. As speculation everywhere is on a small scale, the effect is minimized. Lower prices recently, for some iron products, have been without disturbing force, and the firmer market for print cloths, and strong quotations for lumber, show that in some directions in the great industries a small increase demand is capable of raising prices. The situation still promises a recovery when politics and the strike are settled. Distribution of merchandise at the West is still very active. The working force is increasing steadily, and in railroad and manufacturing circles in the middle West scarcity of labor is causing uneasiness. Fear of tight money has made some men hesitate, but higher rates result from the activity of the movement of cotton, at high prices, in the South. At the moment the movement of gold from Europe has tended to relieve the tension in New York, and gold Pig-iron production has been further reduced, according to the Iron Age. On Oct. 1. the weekly capacity of furnaces in blast was 223,169 tons, against 231,778 Sept. 1, and 296,376 June 1. Stocks at furnaces continue to accumulate, gaining 36,841 tons in September. A gratifying feature is the evidence that supplies in consumers' hands are low. Quotations of iron products are

car and ship builders are also urgent bidders for material. Much disappointment was apparent among cotton traders when the official ber, prices dropped sharply. Wheat also ing is small, Atlantic exports in two weeks amounting to 4,851,878 bu, against 6,177,148 bu

steady, and foreign buying continues, two

contracts of importance being placed. Pipe

makers are buying quantities of pig. while

last year. Shipments of boots and shoes from Boston at the rate of 88,415 cases weekly mean the most active business since April, and exceed the heavy forwardings of last year. Improvement is general, with orders from all parts of the country and frequent requests for shipment. The signs that exing the increased activity at the shops, and the average price of hides at Chicago advanced %c. Failures for the week were 223 in the

United States, against 164 last year, and 32 in Canada, against 27 last year.

IRON AND STEEL PROSPECTS.

Heavy Orders for Rails and Bridge Materials-The Cereal Trade. NEW YORK, Oct. 12.-Bradstreet tomorrow will say: Though some measures of business volume and value make unfavorable comparison with a year ago, and speculation is certainly on a reduced scale hard to resist the conclusion that, with few notable exceptions, the actual business of riod of 1809. This, too, is the case in spite of the distinctly repressive tendency exercised by the present presidential campaign. Prices of staples, as a whole, are firm, after a sustained advance for a month past, succeeding a summer of quiet steadiness, and the unhealthiness of the short side in speculation has been brought forcibly to the attention of dealers in a number of staples. notably hog products and flaxseed. The event of the week in the iron and steel trade has been the taking of 150,000 tons of rails by the Pennsylvania at \$26 a ton, announced on Friday. This action, which probably will be followed by other companies, disposes of the steel rail puzzle satisfactorily to the rail makers and constitutes another element of strength to the industry generally. Despite a decrease of over 20 per cent. in current pig iron pro- quiet. duction from four months ago, furnace stocks are reported increasing and prices rather weak. The considerable volume of hand-to-mouth buying, however, presupposes that consumers' stocks are well down. In structural and bridge material the feature is the placing of the contract for the new East river bridge, which calls for nearly 70,000 tons.

Wheat, including flour, shipments for the week aggregate 4,202,855 bu, against 4,459,167 last week, 5,265,634 in the corresponding week of 1899, and 4,729,995 in 1898. From July 1 to date wheat exports are 51,514,522 bu, against 60,965,047 last season and 57,228,116 in 1898. Corn exports for the week aggregate 2,896,037 bu, against 2,369,249 last week. 3,936,793 in this week a year ago, and 2,790,-292 in 1898. From July 1 to date corn ex-ports are 47.207,698 bu, against 64,754,159 last season and 42,360,240 in 1898. Business failures for the week, in the United States, number 210, as against 177

233 in 1898. This Week's Bank Clearings.

IT GAVE MARKED STRENGTH TO THE WHEAT MARKET.

Cereal Closely-Provisions Active, Weak and Lower.

CHICAGO, Oct. 12.-Wheat was strong on the export business. December closing %@%c over yesterday. Corn closed %6%c and oats %6%c higher. Provisions closed 21/271/2c lower. Wheat opened with sales of December at 75c to 75%c, and under the influence of bearish news eased to 75% @75%c. Liverpool showed a decline. Argentine shipments were larger and the weather favorable. Export business, however, was suspected of being in hiding on the floor, and after the initial decline prices were firm in tendency. Later, when it was reported that 440,000 bushels had been sold here to the other side, a sharp rally followed, and the end of the session found the market at its best. December sold up to 76%c, closing at that figure, %6%c over yesterday. Trade during the forenoon was quiet and local, but later business was more active and wider in character. Shorts covered freely on the upturn. Liverpool close! %@%d lower. Argentine shipments were 944,000 bushels, compared with 664,000 last week and 1.176,000 last year. New York reported nineteen loads taken for export. Seaboard clearances in wheat and flewer were equal to 325,000 bushels. Primary receipts were 934,000 bushels, compared with 1,139,000 a year ago. Minneapolis and Duluth reported 504 cars, against 294 last week and 1.164 the corresponding day last year. Local receipts were 200 cars, nine of contract grade. Corn was firm in sympathy with wheat. Dur-

ing the first hour commission house buying was active, but business became quieter later for a time. Towards the end the wheat strength provoked covering by shorts and the market advanced rapidly. There was also good buying by bulls throughout, presumably with the idea of forcing weak shorts to the front. New York raported ninety-five loads taken for export, but no sales for shipment were reported here. Decemter sold between 34%c and 35%c, closing %6%c higher at 35%c. Receipts here were 648 cars. Western offerings were small.

portant influence throughout the country, steadying effect. December sold between 22c and 22@22%c, closing 160%c higher at 22%c. Receipts

there being a fair amount of liquidation by longs under way. Towards the end the grain strength was felt in the hog pit, and a recovery took place, the close being steady. January pork sold between \$11.571; and \$11.50, and closed %c lower at \$11.57%; January lard between \$6.65 and \$6.80, closing 7%c lower at \$6.72%, and January ribs between \$6.0714 and \$6.12%@6.15, with the close 50 down, at \$6.10. Estimated receipts to-morrow: Wheat, cars; corn. 490 cars; oats, 340 cars; hoge, 20,000 Leading futures ranged as follows

BOSTON, Oct. 12 .- The Commercial Bulletin to-morrow will say of the wool market: The effect upon the local market of the decline at London has been beneficial rather than otherwise. There have been more customers in the market and a good, steady trade has been experienced. The consumers are covering wants. Prices are low at 45c, the basis for good tristaple, but the bottom is believed to have been reached and better markets are looked for after election. Sales for the week were 2,333,000 lbs domestic and 340,000 lbs foreign, a total of 2,673. 000 lbs for this week, against a total of 2,950,000 lbs last week and a total of 3,936,000 lbs the corresponding week last year. The receipts to date show a decrease of 240,972 bales domestic and an increase of 55,284 bales foreign against last year The sales to date show a decrease of 34,697,700 lbs domestic and 26,354,300 lbs foreign.

A SOLDIER'S TESTIMONY.

Writes from the Philippines to Protest Against Bryanism. Correspondence of the Indianapolis Journal. DIEGO, Luzon, P. I., Aug. 10 .- Of late I have been reading a great many speeches and opinions and letters of anti-expansionists, and I can't conceive why it is that men of so much brains as Bryan, Lentz, cessive accumulations have become dis- tive on the principal grades, without being quota- Bacon and others can get up before the people and expose their ignorance as they do. Why, it doesn't take people of more than average common sense to see where the Philippines are going to be of unlimited benefit and value to the United States and the people at large. Copies of clippings of speeches of American anti-expansionists

printed in Tagalo, Bical and Spanish are found quite often in the insurrecto lines, soldiers will have to be kept here in force. Uncle Sam and are paid for, not only in cash, but by the lives of the American soldiers, and we are not a nation known as undeveloped, afford vast opportunities for American capital to develop them and start their future. It is sure to be a paradise after a few years of American training and business energy. American cotton and wool can find a market in the Philippines; also farming implements of all kinds. Railroads and means of transportation are badly needed; also steel and iron bridges and bridge iron have an unlimited market for the next twenty-five years to come. Capital invested here now, if properly looked after, will treble in five years, and there are endless opportunities for investments. Hard woods are to be found along the mountain slopes and the hills, which, if proper machinery and transportation were available, would be one of the bestpaying investments in this island. There is said to be gold in the mountains which could be mined at a very handsome profit. It is well adapted to cattle raising in the foothills, and some good stock is to be seen occasionally which is owned by a few natives. There is a German here who has a large cattle ranch a few miles from this place, who verifies my statement along that line. There is vast opportunity for professional men to locate here, such as | cars; hogs, 26 cars. doctors, dentists, lawyers, civil engineers, school teachers, etc. The opportunities here, if developed along the many business lines offered and after a few years of American training, will make it a perfect paradise for the people who locate here. The people, or natives, are now adopting the American ways and dress, and it will be only a matter of a few years when these people will be able to govern and take charge of the minor details of self-government, but to remove troops from here at this time would mean almost the destruc-I might go into some of the smaller de-

tails about the many chances of fortune which our possessions in the far East present, but this I do not deem necessary. I should like very much to be at home to cast my vote for my old regimental commander, Colonel Durbin, but as it is going to be impossible I wish the Republican ticket success at home, and also the whole ticket, from McKinley to the end.
